

Directions To Redcliffe

Redcliffe is very easy to find if you have been here several times. Forget your GPS's because they have moved the road on both ends twice and GPS just gives up.

So if you are coming from South Park or the Church, just keep on going down Tyvola Rd. as though you were headed to I 77 like you had some sense. But then keep on getting it tell you come to South Tryon Street at the York Road Renaissance park. There you will turn left/ south on South Tryon Street. Go to the next traffic light and turn right on Shopton Rd. Go past the new fire and police academy. Not forgetting to stop at the all way stop sign. Then continue on till Shopton crosses over Steel Creek Road. There at the NEW traffic light continue on and make your way around the roundabout to the other side. Then you will go over 485 and then down a bit of a steep hill where you will come to a stop sign. Should At this stop sign, you have to turn right on Dixie river road. Then go between the new church that they can not decide the name of and Berwick elementary school. You will continue down a steep hill and over a creek that they keep redirecting and start up another steep hill. Going up the hill you will see Windy gap road on the left. There you will turn left then immediately turn right onto Buckland road. Come one mile down Buckland road and you will see the house on the left. It is a brown clapboard house with a diamond rail fence and a detached garage and it is the only house on the road with a flag pole and an American Flag. Do not worry about address numbers as the numbers fluctuate up and down as you go down Buckland Road because they also reference other home that are on side streets. I would hate to be a mail man out here.

So if you are coming from Pineville or Ballintine then take 485 as though you were headed west toward I 85. But get off at the Fort Mill exit. I do not know why they call it that because it is in Shopton. At the top of the ramp turn right or head North toward the airport. Then get in left lane and at the traffic light turn left onto Shopton Road. Then follow directions above.

Now if you are coming North or south on Wilkerson Blvd. or I 85. Then take the Little Rock road exit toward the airport, unless you know a better way to get to the airport without getting lost. As you come around the airport, Little Rock Rd. will become the NEW Wallace Neal Rd. stay on it all the way around the airport. It will cross over what is left of Old Dowld Rd. and then it will parallel 485. The first bridge over 485 on you right will be Walkers Ferry Rd. Just keep going. Then the Next Bridge will be Dixie River Rd. You will see the Dixie Grill signs on the fence. Turn right. Go down Dixie River Road about 2 mile and you will come to a small Black settlement from the end of the war of Northern aggressions. At this point there will be a brick AME Zion church on your left and Dixie River rd. will make a sharp left curve. In that curve you will see Windy Gap Rd on your right. Turn right and keep on turning right onto Buckland road. Follow above directions.
